ABOUT

"I consider my quiet energy as my strength. However, I am a proactive and diligent individual."

I am a student in the Interactive Media Design program of Algonquin College. Before that, I worked as a multimedia editor that rooted me in video editing, photography, and graphic design.

It is my duty not only to be creative, but also to communicate with people through art. Giving a visually compelling design that effectively conveys message and values.

About the project

We are tasked with creating a movie poster for our final project; it could be any genre of choice, but we are required to be in the poster.

Before actual creation, individuals have to think of three words that emphasize the idea of the poster. I thought of the mystery, quiet, and masks. I chose sci-fi as the genre of my movie poster, and think that I could use the emergence of AI as an added concept of my poster.

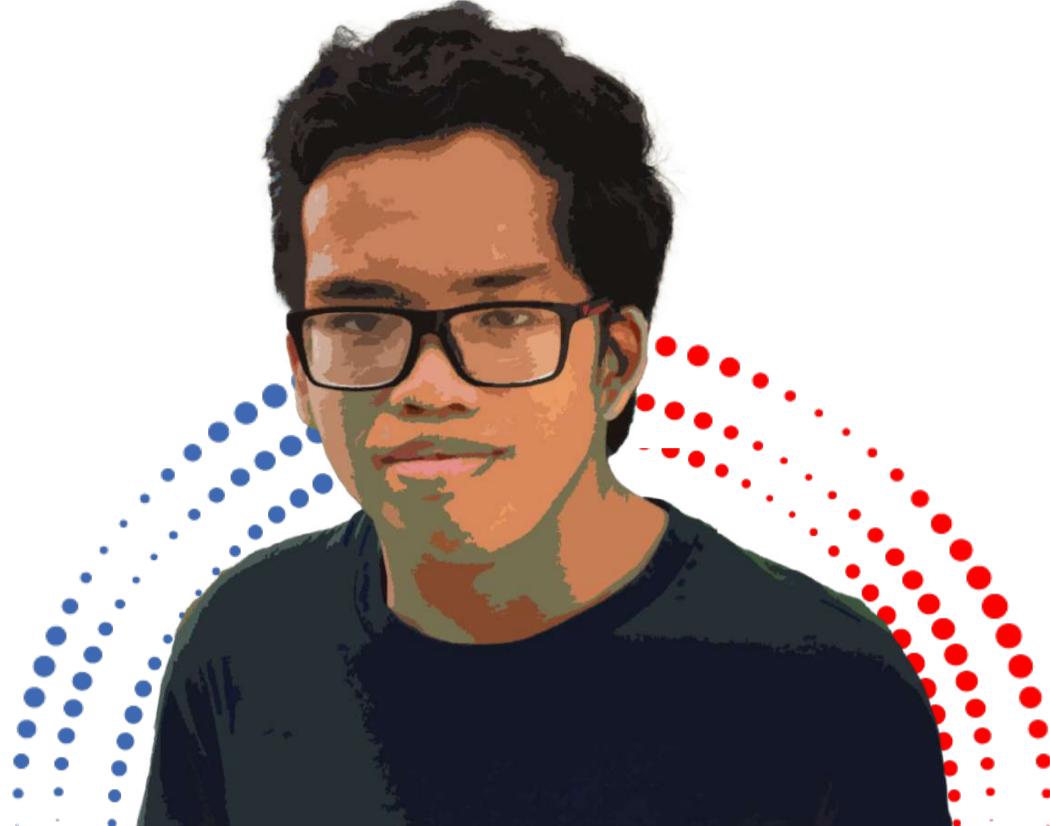

In the output, I used Photoshop concepts of blur, free transform, shadow, and highlight adjustments to demonstrate my understanding of the chosen editing program.

As shown in the picture below, is the placement of the objects before making certain adjustments to the poster.

The screenshot shows the Spense website. At the top, there's a navigation bar with links for "Business", "Pricing", and "Features". Below the navigation, a large call-to-action button says "Share your unfiltered thoughts. Get paid." It features a small image of a person sitting at a desk. To the left of the button, there's a list of benefits: "Receive 99% off the earnings.", "Get paid via Debit Card, ACH, or Paypal.", and "Withdraw your earnings anytime.". At the bottom of the button, there's an input field for an email address ("yourname@email.com") and a "Get Started" button.

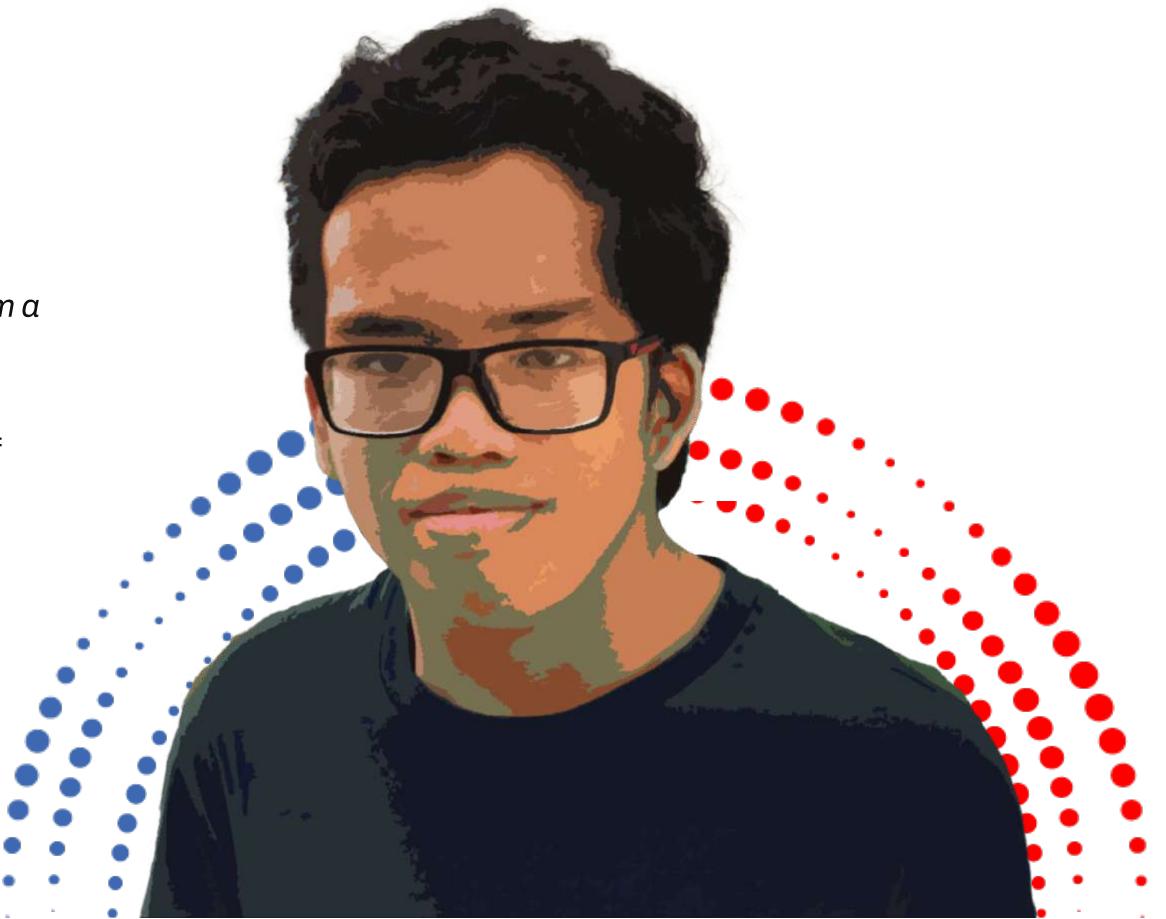

The screenshot shows a graphic design project. It features a cartoon illustration of a boy with black hair, wearing a striped shirt and blue pants, standing next to a yellow flower bed. The background includes green bushes and a blue sky with clouds. To the right of the illustration, the words "Graphic Design" are written in a bold, black, sans-serif font.
