

# ASTER

## ARTIST BIO

Proof that music both connects and transcends human experience—Andrew Bellosillo, David Estupigan, and Calvin Hidalgo are family and childhood friends brought together by an undeniable passion and desire for sharing stories through sound. In fact, ASTER was born in the garage of Andrew's grandmother!

With a blend of instrumentals that embrace the heart and lyrics that reach into the soul, their music resonates a unique sense of familiarity that anyone can find comfort in. This “coming of age” alt-indie rock group’s fresh vibe shines through—no matter if their songs are blatantly upbeat or mellowed down ballads—because they create their music from a place of pure emotion and vivid pasts.

ASTER knows how to weave their words into melodies that will stick with you long after listening—not only because of how sweet they sound but also how warm they feel.

- Manila Bulletin (2021)

"The trio of Andrew Bellosillo, David Estupigan, and Calvin Hidalgo are out to make 'feel-good' music – a must-have nowadays, tbh"
